

Tech Valley Continuity, LLC. Partners with Bold Planning Solutions

Monday February 1, 2010

Latham, NY - Tech Valley Continuity LLC is now offering a comprehensive web based Continuity of Operations planning tool through a joint partnership with Bold Planning Solutions, Inc. Their first collaborative effort will be working with the New York State Department of Motor Vehicles to implement the EMplans solution.

Geoff Turner, president of Tech Valley Continuity LLC, is a certified business continuity professional (CBCP). He says, "Tech Valley Continuity is the region's premier consulting firm dedicated exclusively to helping companies turn potential disasters into an annoyance. By partnering with Bold Planning Solutions, we can now offer state and local government agencies an easy to use, world class solution for the development, maintenance and distribution of their Continuity of Operations (COOP) plans."

Chad Bowers, vice-president of Bold Planning Solutions says, "We are very pleased that NYS DMV has joined thousands of other executive, legislative and judicial agencies in the use of EMplans. Bringing Tech Valley Continuity on board gives us a local presence in the state Capital, a valuable asset when implementing software or consulting on the design, development, testing and training of workable COOP plans."

Tech Valley Continuity LLC is a Latham, NY based consulting firm dedicated exclusively to helping public and private organizations prepare for the inevitable disruption of operations. For more information visit: <http://TechValleyContinuity.com>.

Bold Planning Solutions is a leading provider of web-based planning tools and services for Business Continuity Planning (BCP) and Continuity of Operations Planning (COOP). Headquartered in Nashville, Tennessee, they conjoin decades of experience and in-depth knowledge of continuity/emergency planning with robust planning systems to deliver results to customers that exceed their highest expectations.
